Duplicate Driving Licence Guide

General guidance for customers whose Driving Licence is lost, damaged or requires replacement.

When you may need a duplicate/replacement

Use the appropriate replacement/duplicate service when the existing Driving Licence is lost, damaged or otherwise needs replacement under the applicable rules.

Prepare

Item	Details
DL number/details	Keep the Driving Licence number and existing details if available.
Identity/address	Keep the documents requested by the applicable State/RTO.
Loss details	If the licence was lost, keep any report/acknowledgement required by the local authority or service workflow.
Application receipt	Keep the application/reference number and payment receipt.

Important

Do not apply for a new Driving Licence as though you were a first-time applicant if you already hold a valid DL. Use the appropriate duplicate/replacement service.

Important: This is a customer-preparation guide, not an official government form. Requirements and fees can vary by state, service and applicant. Use the official Parivahan/Sarathi portal for the final requirements.

Prepared for customer guidance by Anjan Digital Services. Verify the latest requirements, fees and appointment rules on the official Parivahan/Sarathi portal before submission.
