Voter Registration & Application Status Guide

A simple guide for customers to check their electoral registration and application status.

Search your voter record

Use the Election Commission's official voter services/search facility to locate your electoral-roll entry using the available search methods.

Application status

After submitting a voter service request, retain the acknowledgement/reference number and use the official status facility to track it.

If your name is missing

If you are eligible but cannot find your entry, review the constituency and personal details used for the search and follow the official registration process if necessary.

If details are wrong

Use the appropriate correction/update service rather than creating a duplicate registration.

Important

Electoral-roll inclusion is determined by the competent electoral authorities. Anjan Digital Services can assist with form preparation and document guidance but cannot guarantee approval or inclusion.

Important: This is a customer-preparation guide, not an official Election Commission form. Final eligibility, documents and processing depend on the applicant and current election rules. Never share OTPs or passwords with anyone.

Prepared for customer guidance by Anjan Digital Services. Electoral registration rules and forms can change; verify the latest information with the Election Commission of India and the applicable State Chief Electoral Officer.
